ARTICLES IN PEER-REVIEWED JOURNALS (19)

Alcohol (6)

1. Grazioli, V., Studer, J., Mohler-Kuo, M., Daeppen, J. B., Bertholet, N., & Gmel, G. Do Personality Traits Moderate the Association Between Peer Influence and Alcohol Outcomes Among Young Swiss Men?
2. Dupuis, M., Baudat, S., Baggio, S., Studer, J., & Gmel, G. Drinking motives mediate the effects of psychopathy and peer pressure on alcohol intake, binge-drinking, alcohol use consequences and drug use: a structural equation model.
3. Foster, S., Gmel, G., Estévez, N., & Mohler-Kuo, M. Parental monitoring, parental attitudes and level of response to alcohol in young Swiss men: level of response constrains parenting.
4. Foster, S., Gmel, G., & Mohler-Kuo, M. The interplay between educational tracks, financial resources, and drinking locations: a cross-sectional mediation analysis in young Swiss men.
5. Foster, S., Gmel, G., & Mohler-Kuo, M. The residual role of parental monitoring in alcohol use disorder during young adulthood.
6. Pitzurra, R., & Mohler-Kuo, M. Culture matters: regional language use in alcohol misuse among young men in Switzerland.

Health Behaviours (7)

1. Studer, J., Baggio, S., Mohler-Kuo, M., Daeppen, J. B., & Gmel, G. Substance use in Swiss young men: The interplay of perceived social support and personality.
2. Rougemont-Bücking, A., Grazioli, V., Daeppen, J. B., Gmel, G., & Studer, J. Family-related stress versus external stressors during early life: differential impacts on alcohol and illicit drug use in young men.
3. Foster, S., Gmel, G., & Mohler-Kuo, M. The symptom correlations of mental disorders in the general population versus among those affected: reconciling the contradiction.
4. Foster, S., & Mohler-Kuo, M. New insights into the correlation structure of the DSM-IV depression symptoms.
5. Glaeser, S., & Elcherath, G. Community climates and health in Switzerland: A contextual analysis of the cohort.

6. Glaeser, S., & Elcheroth, G. Social trust and depressive symptoms among disadvantaged young men: Social cure or normative delusion?
7. Pitzurra, R., Estévez, N., Foster, S., Gmel, G., Mohler-Kuo, M., & Schnyder, U. Associations between potentially-traumatic events and selected mental health problems in young Swiss men.

Illicit drugs and multiple substance use (4)

1. Dupuis, M., Balestra, R., Capel, R., Mohler-Kuo, M., & Gmel, G. Characteristics of MDMA use in Switzerland: an investigation of medical and environmental risk factors among 5,990 Swiss male adults.
2. Dupuis, M., Michaud, C., Capel, R., Mohler-Kuo, M., & Gmel, G. Characteristics of cocaine use in Switzerland: an investigation of medical and environmental risk factors among 5,990 Swiss male adults.
3. Dupuis, M., Racioppi, S., Capel, R., Mohler-Kuo, M., & Gmel, G. Characteristics of hallucinogen use in Switzerland: an investigation of medical and environmental risk factors among 5,990 Swiss male adults.
4. Wang, J., Studer, J., Gmel, G., & Mohler-Kuo, M. Personality and cannabis use trajectories over brief follow-up among young men in a high prevalence country.

Methodology (1)

1. Dupuis, M., Baggio, S., Mohler-Kuo, M., & Gmel, G. The benefits of online questionnaires to prevent from attrition in longitudinal surveys: the example of the Swiss cohort on substance use risk factors (C-SURF).

Tobacco (1)

1. Clair, C., Gmel, G., Fischer, R., & Cornuz, J. Tobacco control legislations and their association with cigarette and other forms of tobacco consumption among young Swiss men.
